

### Report of a Pest Risk Management:

This summary presents the conclusions of the pest risk management which has been conducted on the pest, according to EPPO Standard PP 5/4(1) Pest Risk Management Scheme.

*The text in italics is to guide the assessor as to what information should be presented, it will not appear on the final summary.*

**Pest:** *S. clavigignenti-juglandacearum*

**Assessors:** EPPO Secretariat

**Date:** 2005-02-21

#### IDENTIFICATION OF THE PATHWAYS

##### 1 Pathways studied in the pest risk management

**PATHWAY 1:** Plants for planting of *Juglans* sp

**PATHWAY 2:** Seeds of *Juglans* sp

##### 2 Other pathways

Natural spread is not considered as a pathway, neither are part of plants.

#### IDENTIFICATION OF POSSIBLE MEASURES FOR PATHWAYS

**Pathway 1: Plants for planting of *Juglans* (except seeds) from countries where *S. clavigignenti-juglandacearum* occurs.**

*Measures related to consignments:*

- Inspection of consignments (but will not identify newly infected plants).
- Testing of consignment is feasible but is not enough.

These two measures even combined were not considered appropriate to reduce the risk to an acceptable level.

*Measures related to the crop or to places of production*

- as the pest is considered to have a medium mobility, the recommended measure is place of production freedom and appropriate buffer zone for *S. clavigignenti-juglandacearum*

or

- area freedom for *S. clavigignenti-juglandacearum*;

**Pathway 2: Seeds of *Juglans* sp from countries where *S. clavigignenti-juglandacearum* occurs.**

*Measures related to consignments:*

No measures related to consignments have been identified.

*Measures related to the crop or to places of production*

- as the pest is considered to have a medium mobility, the recommended measure is place of production freedom and appropriate buffer zone for *S. clavigignenti-juglandacearum*

or

- area freedom for *S. clavigignenti-juglandacearum*;

**EVALUATION OF THE MEASURES IDENTIFIED IN RELATION TO THE RISKS PRESENTED BY THE PATHWAYS**

**CONCLUSION: SELECTION OF MEASURES**

Plants for planting of *Juglans* originating in PC and, if appropriate, RC countries where *S. clavigignenti-juglandacearum* occurs

Area freedom for *S. clavigignenti-juglandacearum* according to EPPO Phytosanitary Procedure No

or

Place of production freedom and appropriate buffer zone (at least 1 km) for *S. clavigignenti-juglandacearum*. since the preceding growing period

Seeds of Juglands

PC and, if appropriate, RC

Area freedom for *S. clavigignenti-juglandacearum* according to EPPO Phytosanitary Procedure No

or

Place of production freedom and appropriate buffer zone (at least 1 km) for *S. clavigignenti-juglandacearum*. since the preceding growing period

## APPENDIX

*For each possible category of measures in the pest risk management scheme, this table could identify specifically the ones which were considered suitable ("possible" in bold) and the ones which were not suitable (with a brief justification)*

**The Panel should decide whether such a summary table is useful, and whether it belongs to the pest risk management, or to the report of the pest risk management**

<b>CATEGORIES OF MEASURES</b>	<b>Pathway n° 1</b>	<b>Pathway n° 2</b>
<b>Detection of the pest in consignments by inspection or testing</b>		
general visual inspection	<b>no</b>	<b>no</b>
specified testing	no	no
import under special licence/permit and post-entry quarantine	no	no
<b>Removal of the pest from the consignment by treatment or other phytosanitary procedures</b>		
specified treatment	no	<b>no</b>
removal of parts of plants from the consignment	not relevant	not relevant
<b>Prevention of establishment by limiting the use of the consignment</b>		
import under special licence/permit and specified restrictions	no	no
<b>Prevention of infestation of the commodity</b>		
specified treatment and/or period of treatment (crop)	yes but not sufficient	yes but not sufficient
consignment should be composed of specified cultivars	not suitable	not suitable
specified protected cultivation	<b>no</b>	<b>no</b>
specified age of plant, growth stage or time of year of harvest	<b>no</b>	<b>no</b>
specific handling/packing methods	not relevant	not relevant
certification scheme	no	no
<b>Establishment and maintenance of pest freedom of a crop, place of production or area</b>		
pest freedom of the crop	no	no
pest-free place of production	yes	yes
pest-free place of production and appropriate buffer zone	no	no
pest-free area	<b>Area freedom</b>	<b>Area freedom</b>
<b>Prohibition</b>	no	<b>no</b>
<b>Internal measures</b>		
surveillance and/or eradication campaign	yes	yes
